Dated the 17<sup>th</sup> June, 2014

## FOREWORD

The Animal Husbandry and livestock sectors are critical for the rural economy, especially the small and marginal farmers. They not only contribute to their income but also their best insurance against any natural calamity.

For planning purposes, the need for upto date and reliable data cannot be over emphasized. Livestock Census is a quinquennial complete enumeration process whereby data on number of livestock along with their sex composition, age distribution, utility wise distribution etc. are generated. The present report provides detailed data of the 19<sup>th</sup> Livestock Census conducted across the country covering all States and Union Territories. I am happy that there has been a significant improvement in all aspects of census work, viz. data collection, processing and tabulation.

Thanks are due to the official and staff of the Animal Husbandry Departments of States and UTs without whose whole hearted cooperation this census could not have been undertaken. I would also like to congratulate Shri S.K.Das, Adviser (Statistics) and his team of officers and staff in the Animal Husbandry Statistics Division in the Department for their untiring efforts in bringing out this voluminous and useful publication.

I sincerely hope that the report will be useful to all stakeholders, for planning and policy making purposes and also for research and academic purposes. I would also invite critical comments and suggestions on their report in order that the same could be useful in helping us to bring out an improved report of the 20<sup>th</sup> Livestock Census to be conducted in 2017.

(Anup Kumar Thakur)

## **PREFACE**

Livestock census actually covers the census of livestock, poultry, implements and machinery used for livestock rearing. It is the only source for providing various kind of detailed information for these groups. India has largest livestock numbers in the world. Sound and timely available database are the basic requirement for any planning and policymaking purposes. The conduct of livestock census is thus essential for making plans and policies for growth of livestock sector and also for overall growth of the economy. Livestock Census in our country started in the year 1919 and since this the process has been continuing on quinquennially basis. This is the Nineteenth census of this regular series of livestock censuses. Breed wise census of livestock is independently done on 15% villages across the country separating from the main stream of census.

The Nineteenth livestock census was conducted with 15<sup>th</sup> October 2012 as the reference date. All States/UTs participated in the census work and completed in shortest time. The census was conducted simultaneously in all rural and urban areas of the States/UTs including inaccessibility areas on account of topography, weather conditions or severe administrative problems and defence establishments.

About 1.71 lakh enumerators and 28474 supervisors besides senior officers of Animal Husbandry Departments were involved for the census work in 35 States/UTs. The census generate data for over 7.25 lakh villages and urban wards records across the country. The present report has been prepared within shortest possible time after completion of fieldwork and contains the State-wise totals of all relevant parameters with rural urban break up.

I express my gratitude to Shri Anup Kumar Thakur, Secretary, Department of Animal Husbandry, Dairying & Fisheries, Ministry of Agriculture, who encouraged and guided all of us for release of the publication. I also acknowledge my sincere gratitude to Shri Gokul Chandra Pati, former Secretary, Department of Animal Husbandry,

(Contd...)

Dairying & Fisheries, Ministry of Agriculture and currently Secretary, Defence Production for his keen interest in 19<sup>th</sup> Livestock Census and guiding force for meticulous planning for completion of census and digitalization of census data and census report. I am also thankful to Shri Ashok Kumar Mathur, my predecessor for undertaking various technical and administrative work including preparation of census manual and clearance of financial sanctions etc. prior to formal launch of 19<sup>th</sup> Livestock Census.

Shri Ajith Kumar N, Director, Shri Manoj Kumar Verma, Deputy Director and Shri Brij Mohan Gupta, Asstt. Director with their team have worked very sincerely and with great zeal in achieving the target of releasing the result in shortest possible time. I would like to convey my appreciation to all officers and staff of State Animal Husbandry Departments who took extra effort and care for completing the census work in record time. Although inadequate software development of outsourced agencies create several problems for data entry and report generation, the National Informatics Centre and National Institute of Electronics and Information Technology's team could rectify such problems for data entry and generating report. I also acknowledge the contribution of Shri Gautam Saha, Chief Project Coordinator and his team for data entry, data validation and data finalisation of all States/UTs for 19<sup>th</sup> Livestock Census.

It is hoped that the publication would be useful to the administrators, planners, veterinarians, scientists and various research organizations/institutions involved in the development of livestock and poultry sectors in addition to the State Departments of Animal Husbandry & Veterinary Services.

Suggestions/ comments for improvement in this publication, proposed state-wise publications and also for future censuses will be welcomed.

**(S. K. Das),**  
Adviser (Statistics)

# Chapter 1.

---

## Introduction

**L**ivestock Census started in the country in the year 1919. So far 18 such censuses have been conducted. The Livestock Census in 2012 is 19<sup>th</sup> in the series of Livestock censuses. All exercises were carried out with full participation of States/UT Governments.

Livestock Census is a complete count of the livestock and poultry at a pre - defined reference point of time. As in population Census, primary workers were engaged to undertake house to house enumeration and ascertain the number, age, sex, etc., of livestock/poultry possessed by every household/household enterprises/ non-household/ non-household enterprises and institutions in rural & urban areas. Preliminary preparations such as printing of schedules and instruction manual, training to the primary workers, publicity campaign, etc., were undertaken as preparatory steps to the conduct of the census. The Census schedules and instruction manual were printed in the local vernacular languages also. The 19<sup>th</sup> Livestock Census was carried out with reference date as 15<sup>th</sup> October 2012.

## Livestock Sector

The livestock sector alone contributes nearly 25.6% of Value of Output at current prices of total value of output in Agriculture, Fishing & Forestry sector. The overall contribution of Livestock Sector in total GDP is nearly 4.11% at current prices during 2012-13.

Realizing the importance of this sector and also of timely availability of data, many improvements have been brought in census. The census was conducted by Animal Husbandry Departments of States/UTs under the central sector scheme with 100% central grant from the Department of Animal Husbandry, Dairying and Fisheries in

the Ministry of Agriculture. Most of the States/UTs conducted the census on schedule time except in some states where delay occurred due to adverse climatic condition, natural calamities, elections and other administrative reasons. The data were collected in the form of three schedules with more than three hundred main data items including broad age group, sex wise, breed wise, species etc.. Officers and staff associated with census work were provided intensive training for data collection, supervision, processing and validation. The data were collected from each household and other entities both in rural and urban areas. The data were collected through oral inquiry method by the staff of Animal Husbandry Department or enumerators trained by them. Manual of instructions were prepared. Supervision of fieldwork was done by departmental officers and staff only. Software development, data entry, data validation, data finalization and report generation were carried out in association with National Informatics Centre, Ministry of Information and Communication Technology.

The progress in this sector is attributed not only by the fact of increasing production of milk, egg, meat and wool but also overall development of livestock by its diseases control, progeny development and related infrastructure etc.. The total numbers of animals in each of the identified species are very important determinant factor in the growth of livestock sector. A brief analysis is given in this report considering the comparison of the previous census results as well as the data collected from the current census

---

## Technical Note

### Technical Committee for 19<sup>th</sup> Livestock Census

A technical committee was constituted under the Chairmanship of Animal Husbandry Commissioner in order to finalize subject coverage, methodology, schedule of enquiry, instructions to field staff and time frame of work to be followed in this census. Further a sub – committee of the technical committee was also constituted under the Chairmanship of Adviser (Statistics) to suggest suitable recommendations for framing schedules and instructions manual including methodology.

### Geographical Coverage of Livestock Census

As per Office of Registrar General of India (ORGI), the total population in the country as on 1<sup>st</sup> March 2011 is 1210.2 million. The total Geographical area of the country is 3287240 sq km. The census operations were carried out in 5971 sub-districts under 648 districts of 35 States/UTs covering 6.6 lakhs villages and nearly 64639 urban wards. The Permanent Location Code Number (PLCN) assigned by ORGI for villages in rural area and towns in urban area were used in 19<sup>th</sup> Livestock Census. Each town in urban area is further divided into Wards and the schedules are prepared and data entries were carried out at ward level for urban area. For the State of Kerala Panchayat Wards were considered in place of villages in rural area.

The census was conducted simultaneously in all rural and urban areas of the States/UTs including inaccessible areas on account of topography, weather conditions or severe administrative problems and defence establishments. Apart from covering each household, the census was also conducted in the household enterprises as well as non-households enterprises such as farm houses and institutions i.e. cooperative societies, trusts, temples, mosque, church, *gurdwara* etc.

## Species Covered in Livestock Census

The livestock species namely Cattle, Buffalo, Sheep, Goat, pig, Horses& Ponies, Mules, Donkeys, Camels, Mithun and Yak are covered in the census. The other species covered in the census are Dogs, Rabbits and Elephants. In the census, head count counts have been done for each of these species and recorded in their respective households/household enterprises/non-households enterprises. The characteristics i.e. age, sex distribution and its uses collected for each species are given in the **Box 2.1**.

Box 2.1		
Species	Characteristics	
Exotic and Cross bred Cattle	<b>Male</b> <ul style="list-style-type: none"> <li>Up-to 1 ½ year</li> <li>Over 1 ½ year</li> <li>Used for Breeding</li> <li>Used for draught only</li> <li>Used for both draught and breeding</li> <li>Others</li> </ul>	<b>Female</b> <ul style="list-style-type: none"> <li>under 1 year,</li> <li>1 to 2 ½ years and</li> <li>Above 2 ½ years.</li> <li>In milk</li> <li>Dry</li> <li>Not calved once</li> <li>others</li> </ul>
Indigenous Cattle	<b>Male</b> <ul style="list-style-type: none"> <li>Up to 2 year</li> <li>Over 2 year</li> <li>Used for Breeding</li> <li>Used for draught only</li> <li>Used for both draught and breeding</li> <li>Others</li> </ul>	<b>Female</b> <ul style="list-style-type: none"> <li>under 1 year,</li> <li>1 to 3 years and</li> <li>above 3 years</li> <li>In milk</li> <li>Dry</li> <li>Not calved once</li> <li>others</li> </ul>
Buffaloes	<b>Male</b> <ul style="list-style-type: none"> <li>up to 2 year</li> <li>Over 2 year</li> <li>Used for Breeding</li> <li>Used for draught only</li> <li>Used for both draught and breeding</li> <li>Others</li> </ul>	<b>Female</b> <ul style="list-style-type: none"> <li>under 1 year,</li> <li>1 to 3 years and</li> <li>above 3 years</li> <li>In milk</li> <li>Dry</li> <li>Not calved once</li> <li>others</li> </ul>
Sheep and Goat	<b>Male/Female</b> <ul style="list-style-type: none"> <li>under 1 year</li> <li>1 year and above</li> <li>In addition for Female Goat , In milk, Dry Not calved once are also counted separately</li> </ul>	
Pig	<b>Male/Female</b> <ul style="list-style-type: none"> <li>Under 6 months</li> <li>Six months and above</li> </ul>	

Horses and Ponies/	<b>Male/ Female</b> <ul style="list-style-type: none"> <li>• up to 3 years and</li> <li>• above 3 years</li> <li>• For male used for carts/carriage/sport</li> </ul>
Donkeys/Mithun/Yak	<b>Male/ Female</b> <ul style="list-style-type: none"> <li>• up to 3 years and</li> <li>• above 3 years</li> </ul>
Mules	<ul style="list-style-type: none"> <li>• up to 3 years and</li> <li>• above 3 years</li> </ul>
Camel	<b>Male/ Female</b> <ul style="list-style-type: none"> <li>• Under 4 Years</li> <li>• 4 years and above</li> </ul>
Elephant/Dogs/Rabbit	<b>Male/ Female</b>
Poultry	<ul style="list-style-type: none"> <li>• Fowl</li> <li>• Ducks</li> <li>• Turkeys</li> <li>• Quails</li> <li>• Other poultry</li> <li>• No. of birds in Farms/ Hatcheries</li> </ul>

### Important Changes in the Enquiry Schedule of 19<sup>th</sup> Livestock Census

In 19<sup>th</sup> Livestock Census some changes have been brought in for simplifying the schedule as compared to the 18<sup>th</sup> Livestock Census. The changes brought out in the age structure are shown in the Box 2.2 below.

#### Box 2.2

Species	Characteristics	
	18 <sup>th</sup> Livestock Census	19 <sup>th</sup> Livestock Census
Exotic and Cross bred Cattle	<b>Male</b> <ul style="list-style-type: none"> <li>• Under 1 year</li> <li>• 1 to 2 ½ years</li> <li>• over 2 ½ years</li> <li>• Used for breeding</li> <li>• Used for agriculture</li> <li>• Used for bullock cart</li> <li>• others</li> </ul>	<b>Male</b> <ul style="list-style-type: none"> <li>• Up-to 1 ½ year</li> <li>• Over 1 ½ year</li> <li>• Used for Breeding</li> <li>• Used for draught only</li> <li>• Used for both draught and breeding</li> <li>• Others</li> </ul>

Indigenous Cattle	<p>Male</p> <ul style="list-style-type: none"> <li>• under 1 years</li> <li>• 1 to 3 years</li> <li>• over 3 years</li> <li>• used for breeding only</li> <li>• agriculture &amp; breeding</li> <li>• bullock cart &amp; breeding</li> <li>• others</li> </ul>	<p>Male</p> <ul style="list-style-type: none"> <li>• Up to 2 year</li> <li>• Over 2 year</li> <li>• Used for Breeding</li> <li>• Used for draught only</li> <li>• Used for both draught and breeding</li> <li>• Others</li> </ul>
Buffaloes	<p>Male</p> <ul style="list-style-type: none"> <li>• Under 1 years</li> <li>• 1 to 3 years</li> <li>• over 3 years</li> <li>• Used for breeding only</li> <li>• Agriculture &amp; breeding</li> <li>• Bullock cart &amp; breeding</li> <li>• Others</li> </ul>	<p>Male</p> <ul style="list-style-type: none"> <li>• up to 2 year</li> <li>• Over 2 year</li> <li>• Used for Breeding</li> <li>• Used for draught only</li> <li>• Used for both draught and breeding</li> <li>• Others</li> </ul>
Sheep	<p>Male/Female</p> <ul style="list-style-type: none"> <li>• Up to 6 month</li> <li>• 6 months &amp; above</li> </ul>	<p>Male/Female</p> <ul style="list-style-type: none"> <li>• under 1 year</li> <li>• 1 year and above</li> </ul>

Further, in 18<sup>th</sup> Census, all breeds of Livestock species were also considered as one of the characteristics and head counts were made separately. In 19<sup>th</sup> Livestock Census, the characteristics of breed of livestock species were separated out in order to simplify the schedule and a sample survey namely Breed Survey was carried out independently. The decision was also made keeping in view the fact that identifying the breed is a more complex exercise which has to be done by trained personnel in veterinary sciences.

Adding more features such as stray cattle and stray dogs is also worth of note. It is the first time in Livestock Census that information regarding stray cattle and stray dogs was collected. The information on approximate number of stray cattle and stray dogs were collected from a single source in the village/ward such as *Sarpanch/ other panchayat member or patwari* or teacher or other knowledgeable person.

Some important concepts and definitions adopted in 19<sup>th</sup> Livestock census is given in **Box: 2.3**

**Box 2.3**

**Some Important concepts and definitions used in Livestock Census:**

**Enterprise:** An enterprise is an undertaking which is engaged in production and or distribution of some goods and or services meant mainly for the purpose of sale.

**Household:** A group of persons normally living together and taking food from a common kitchen will constitute a household. Head of household will be that member of the household who is accepted generally as the head of the household by the members of the family. He/she may or may not be the major earning member. It should be left to the members of a household to decide whom they consider to be the head of the household.

**Household enterprise:** A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household or not.

**Non-household enterprise:** A non-household enterprise is one which is institutional i.e. owned and run by the public sector (Central or State Government, local bodies, government undertakings, etc.), private corporate sector (include public and private limited companies registered as joint stock companies under the Companies Act 1956), Co-operative societies, other type of societies, institutions, associations, trusts, etc. .

**Institution:** For the purpose of 19<sup>th</sup> Livestock Census, Temple, Mosque, Gurudwara, etc. will be covered under Institution

**Indigenous Animals:** Animals which belongs to distinct/non-distinct breeds of indigenous origin.

**Exotic Animals** Animals which are developed in other countries are described as exotic animals. ***The most important exotic dairy cattle breeds in India are Jersey and Holstein Friesian (HF).***

**Cross-bred Animals:** Animals which are produced by crossing indigenous animals with exotic breeds or indigenous animals which have exotic inheritance are described as crossbred animals.

**Animals in milk:** Animals in milk production are described as animals in milk.

**Dry Animals:** Animals which are calved but at present not in production are described as dry animals. Animals that cannot be calved in future are not covered under this category.

**Poultry Farms:** Farms having more than 1000 birds will be considered as Poultry Farms. Farms having **only** Emu/Ostrich birds will be considered as farm if having more than 20 birds. However, all government enterprises having poultry are considered as poultry farms irrespective of the number of birds in them.

**Desi' and 'improved' poultry birds:** If a hen/duck lays more than 100 eggs in a year then it is categorized as 'improved' hen/duck or else it is categorized as 'desi'. If a cock/ chicken/ drake/ duckling falls into the flock of an 'improved' hen/duck then it an 'improved' cock/ chicken/ drake/ duckling or else it is 'desi'.

**Milking Machine:** Used for milking.

**Baler:** Used for making bales of straw for easy transportation.

In 19<sup>th</sup> Census the socio economic characteristics such as occupation/caste/income etc. are not collected as was done in 18<sup>th</sup> Census. Further, in 18<sup>th</sup> Census information on Fisheries Statistics, animal driven agricultural implements, equipment for livestock and poultry and their utilisation were collected. However, in 19<sup>th</sup> Census, the Fisheries Statistics was removed and the equipment used in livestock sector like milking machine, mechanised fodder cutter, mechanised chopper and baler, mechanised dung collection and disposal were collected.

## Human Resources

The Livestock Census-2012 was a concerted effort conducted with the active participation of all States/UTs. Nodal officers were designated for livestock census in each States and UTs. As in the human census, in livestock census also door to door survey was carried out by deploying nearly 1.71 Lakhs enumerators and 0.28 lakh supervisors under the supervision of officers of Department of Animal Husbandry of each State/UTs. In the 19<sup>th</sup> Livestock Census, primary workers for enumeration work have been drawn from the village/municipal level functionaries of various departments such as revenue, animal husbandry, etc. and in some States educated unemployed local youths were deployed as enumerators. Supervisors were mainly from the Department of Animal Husbandry of the respective States/UTs.

### **Schedules Canvassed**

The Schedules canvassed are (i) Schedule-1- House list of households, enterprises and institutions, (ii) Schedule-2- Village/Ward Profile and (iii) Schedule-3- Household, Enterprise & Institution Schedule. The schedules were canvassed for each households/Non- household/ Institution in every village/ ward and the data entry process was done at village/ward level using the summary schedule viz Schedule-2. Preliminary preparations such as printing of schedules and instruction manual, training to the primary workers, publicity campaign, house listing operations etc., were undertaken as preparatory steps for census. The Census schedules and instruction manual were printed in the local vernacular languages.

# Chapter 3

---

## Salient Features of 19<sup>th</sup> Livestock Census

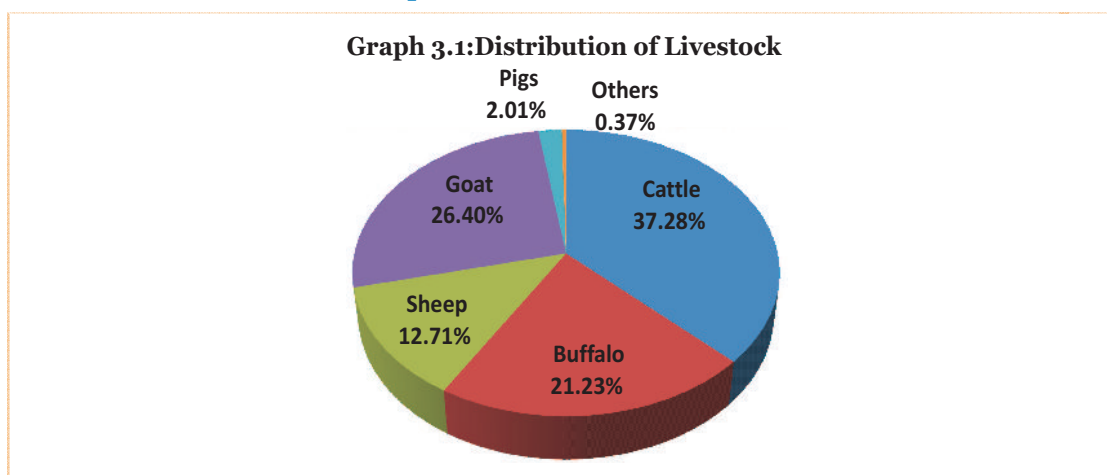

### Total Livestock in 2007 and 2012- Highlights

- ✧ The total livestock population consisting of Cattle, Buffalo, Sheep, Goat, pig, Horses & Ponies, Mules, Donkeys, Camels, Mithun and Yak in the country is 512.05 million numbers in 2012. The total livestock population has decreased by about 3.33% over the previous census.
- ✧ Livestock population has increased substantially in Gujarat (15.36%), Uttar Pradesh (14.01%), Assam (10.77%), Punjab (9.57%) Bihar (8.56%); Sikkim (7.96%), Meghalaya (7.41%), and Chhattisgarh (4.34%).
- ✧ The total Bovine population (Cattle, Buffalo, Mithun and Yak) is 299.9 million numbers in 2012 which shows a decline of 1.57% over previous census.
- ✧ The number of milch animals (in-milk and dry) in cows and buffaloes has increased from 111.09 million to 118.59 million, an increase of 6.75%.
- ✧ The number of animals in milk in cows and buffaloes has increased from 77.04 million to 80.52 million showing a growth of 4.51%.
- ✧ The Female Cattle (Cows) Population has increased by 6.52% over the previous census (2007) and the total number of female cattle in 2012 is 122.9 million numbers. The Female Buffalo population has increased by 7.99% over the previous census and the total number of female buffalo is 92.5 million numbers in 2012. The buffalo population has increased from 105.3 million to 108.7 million showing a growth of 3.19%.
- ✧ The exotic/crossbred milch cattle increased from 14.4 million to 19.42 million, giving rise to an increase of 34.78% whereas the indigenous milch cattle increased marginally from 48.04 million to 48.12 million, an increase of 0.17%. The milch buffaloes increased from 48.64 million to 51.05 million with an increase of 4.95% over previous census.

## 19<sup>TH</sup> LIVESTOCK CENSUS-2012

- ❖ The total sheep in the country is 65.06 million numbers in 2012, declined by about 9.07% over census 2007.
- ❖ The Goat population has declined by 3.82% over the previous census and the total Goat in the country is 135.17 million numbers in 2012.
- ❖ The total pigs in the country have decreased by 7.54% over the previous census and the total pigs in the country are 10.29 million numbers in 2012.
- ❖ Horses & Ponies population has increased by 2.08% over the previous census and the total Horses & Ponies in the country is 0.62 million numbers in 2012.
- ❖ The total Mules in the country have increased by 43.34% over the previous census and the total Mules in the country are 0.19 million numbers in 2012.
- ❖ Camel population has decreased by 22.48% over the previous census and the total Camels in the country is 0.4 million numbers in 2012.
- ❖ The total Donkey population in the country have decreased by 27.22% over the previous census and the total donkeys in the country are 0.32 million numbers in 2012.
- ❖ The total poultry population in the country has increased by 12.39% over the previous census and the total poultry in the country is 729.2 million numbers in 2012.
- ❖ The total Mithun and Yak in the country has registered a growth rates of 12.98% and -7.64% respectively over the previous census and the Mithuns and Yaks in the country is 0.29 million and 0.07 million in numbers respectively.

## Distribution of Livestock Population

- ❖ In 19<sup>th</sup> Livestock Census, 37.28% were cattle, 21.23% buffaloes, 12.71% sheep, 26.40% goats and 2.01% pigs. The corresponding figures as per the 18<sup>th</sup> Livestock Census were 37.58%, 19.89%, 13.50%, 26.53% and 2.10%.
- ❖ Mithun, Yaks, Horses, ponies, mules, donkeys and camels taken together contribute 0.37 % of the total livestock.

<b>Total Buffalo</b>	8.70	-9.50	7.60	4.18	-15.11	3.19

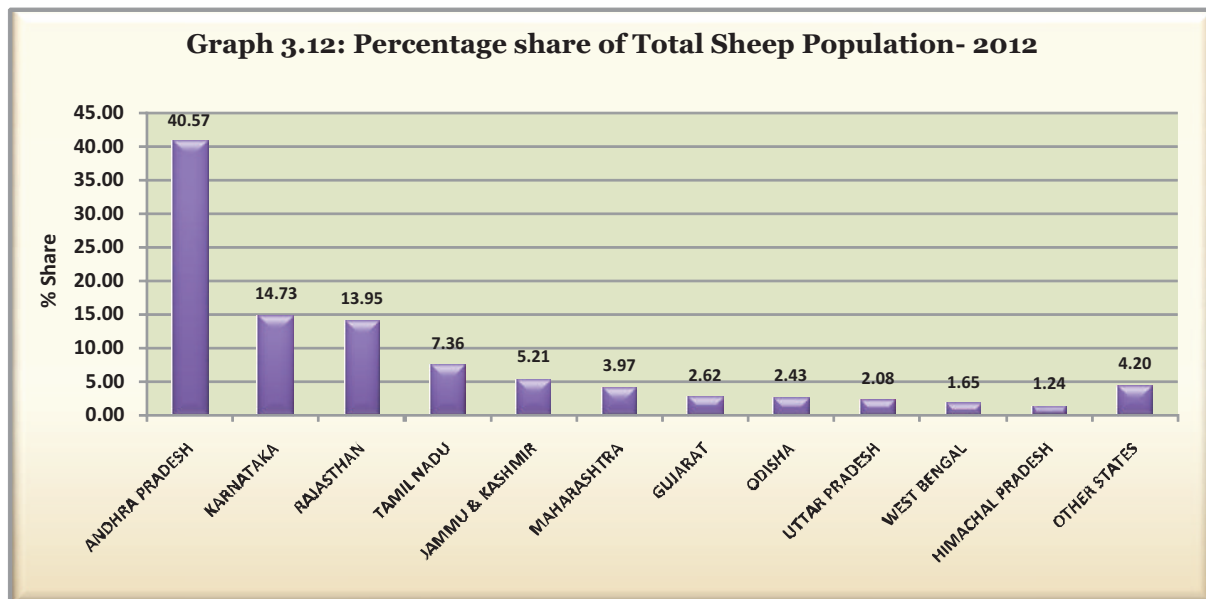

- ❖ The variations of animals in -milk of Buffalo population during the period 2003-07 and 2007-12 showing a decline of 56% in rural area.
- ❖ The percentage changes in - milch Buffalo population during the periods has increased by 46% in rural areas.
- ❖ The percentage changes in total female Buffalo population showing an increase of 10% in rural areas.
- ❖ The decline of Male Buffalo population is on higher side for both rural and urban areas during 2007-12.

### Sheep

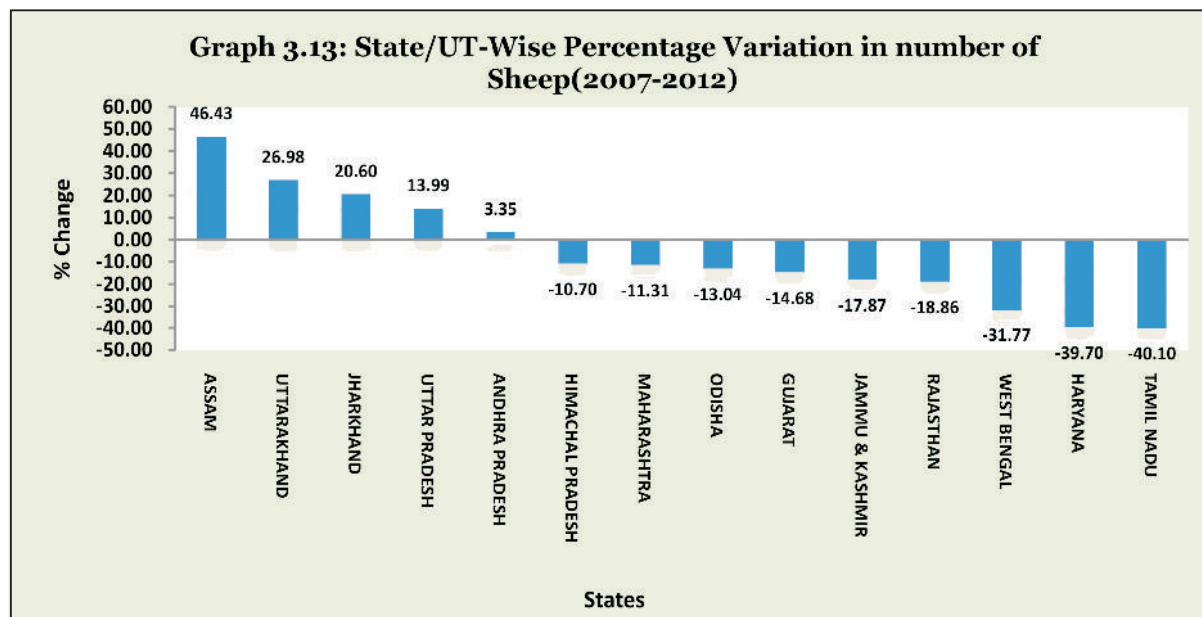

- ❖ The total Sheep contributes around 12.71% of the total livestock population.
- ❖ The total number of Sheep in the country as per 2012 Census is 65 million numbers.

### State-wise Sheep Population

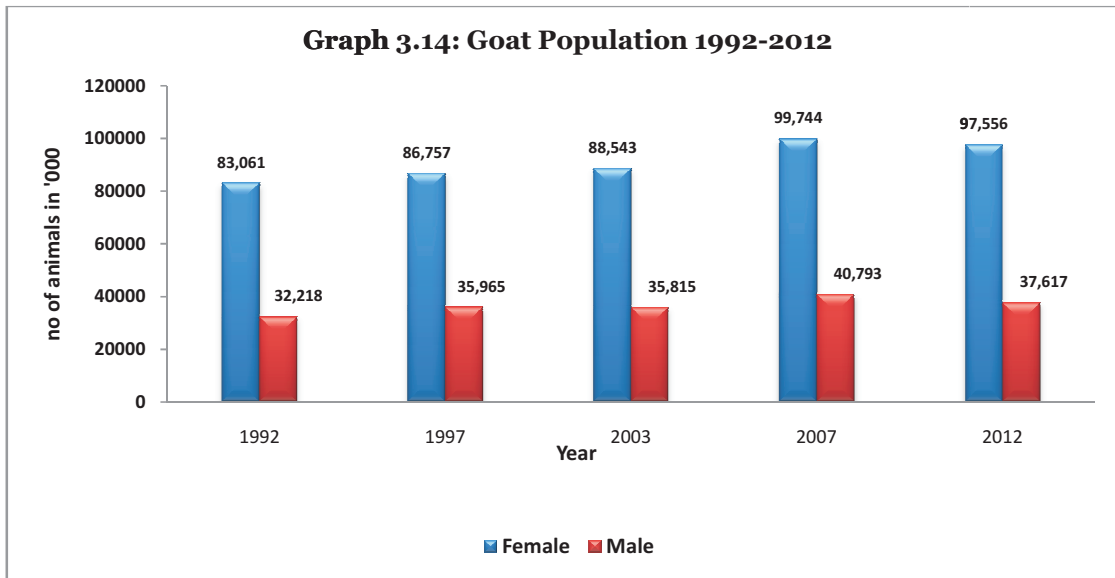

### State/UT-Wise Percentage Variation in number of Sheep

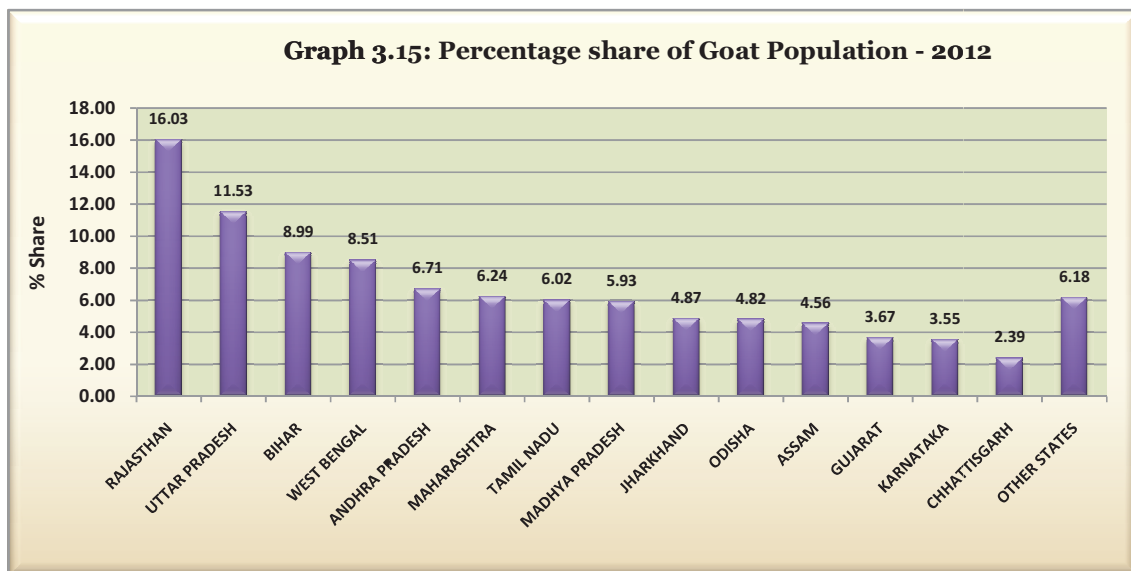

### Goat

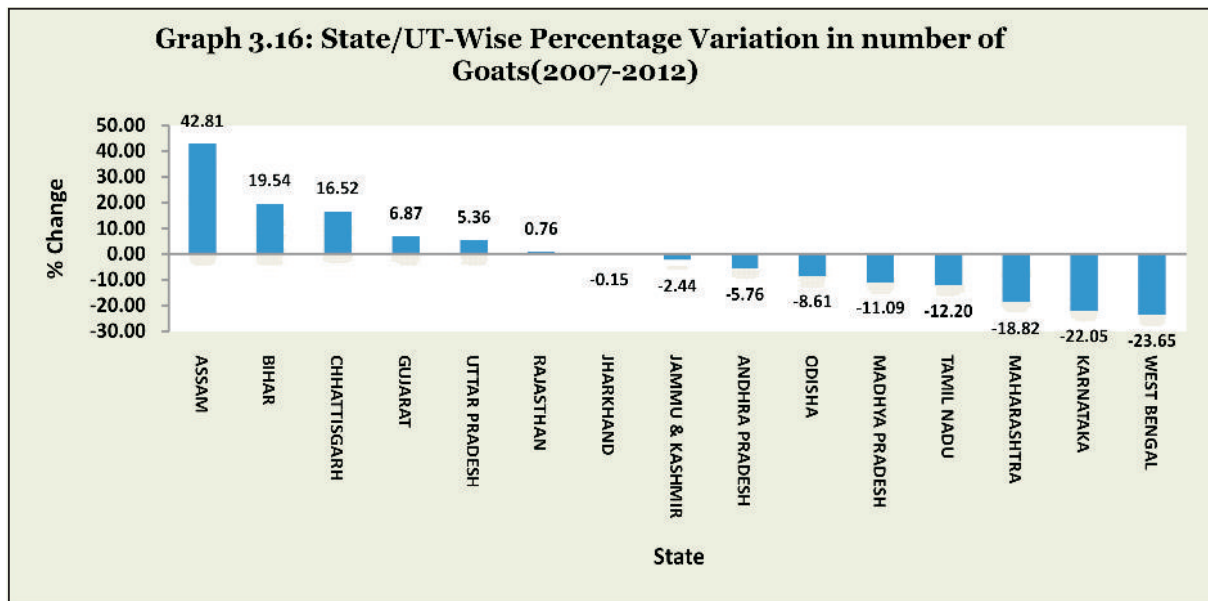

- ✧ The total Goat contributes around 26.40% of the total livestock population.
- ✧ The total number of Goat in the country as per 2012 Census is 135.17 million numbers.

### State-wise Goat Population

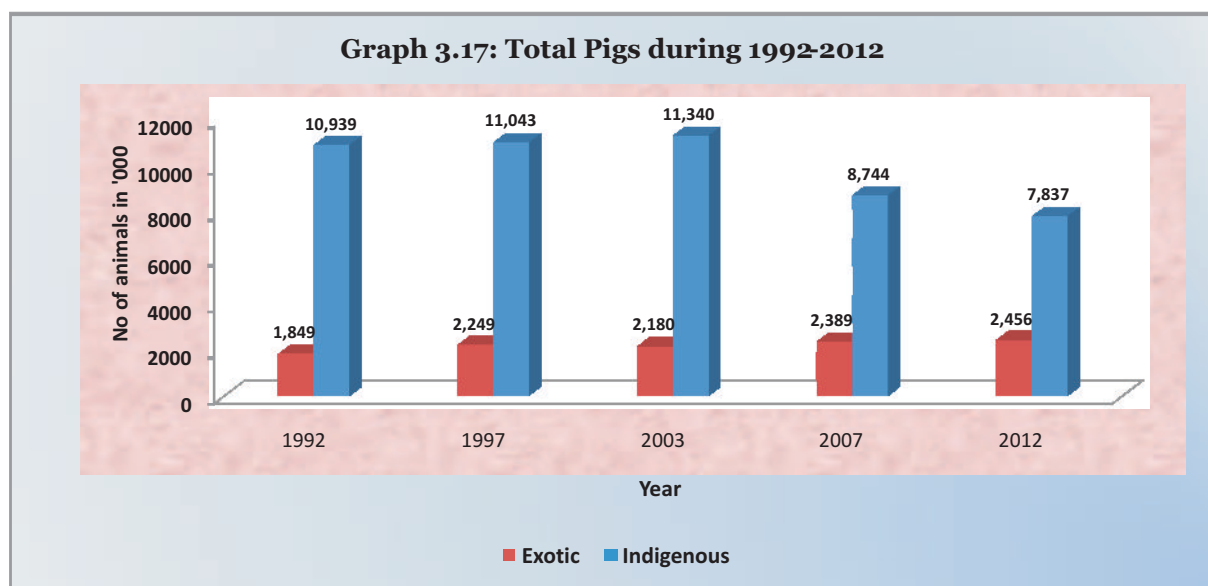

### State/UT-Wise Percentage Variation in number of Goat

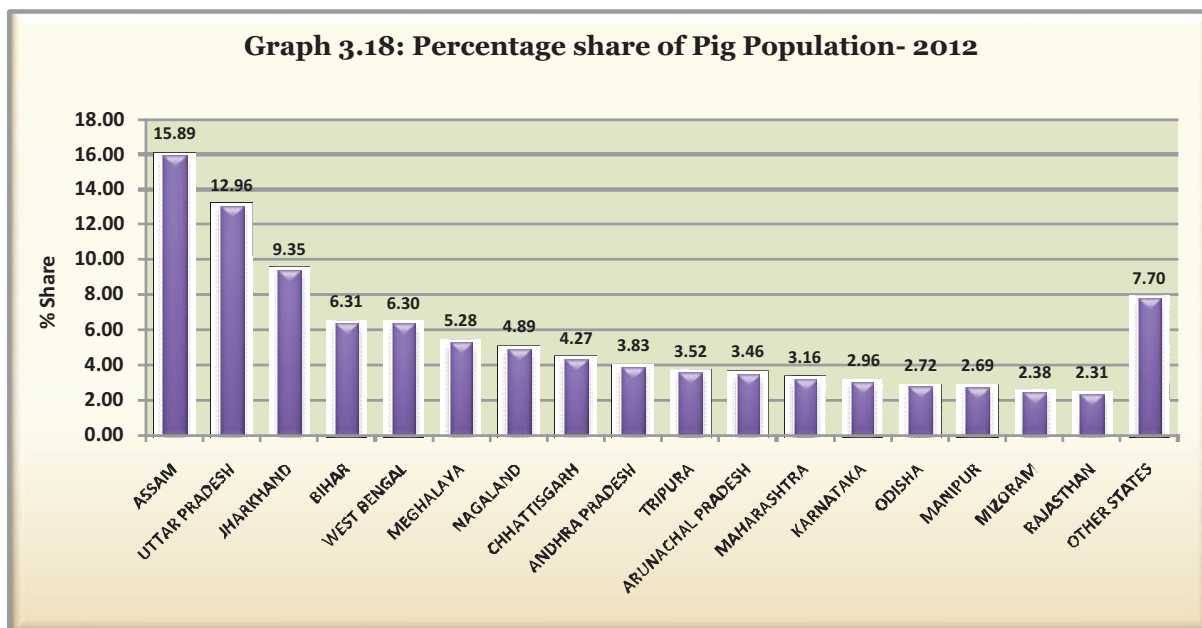

### Pigs

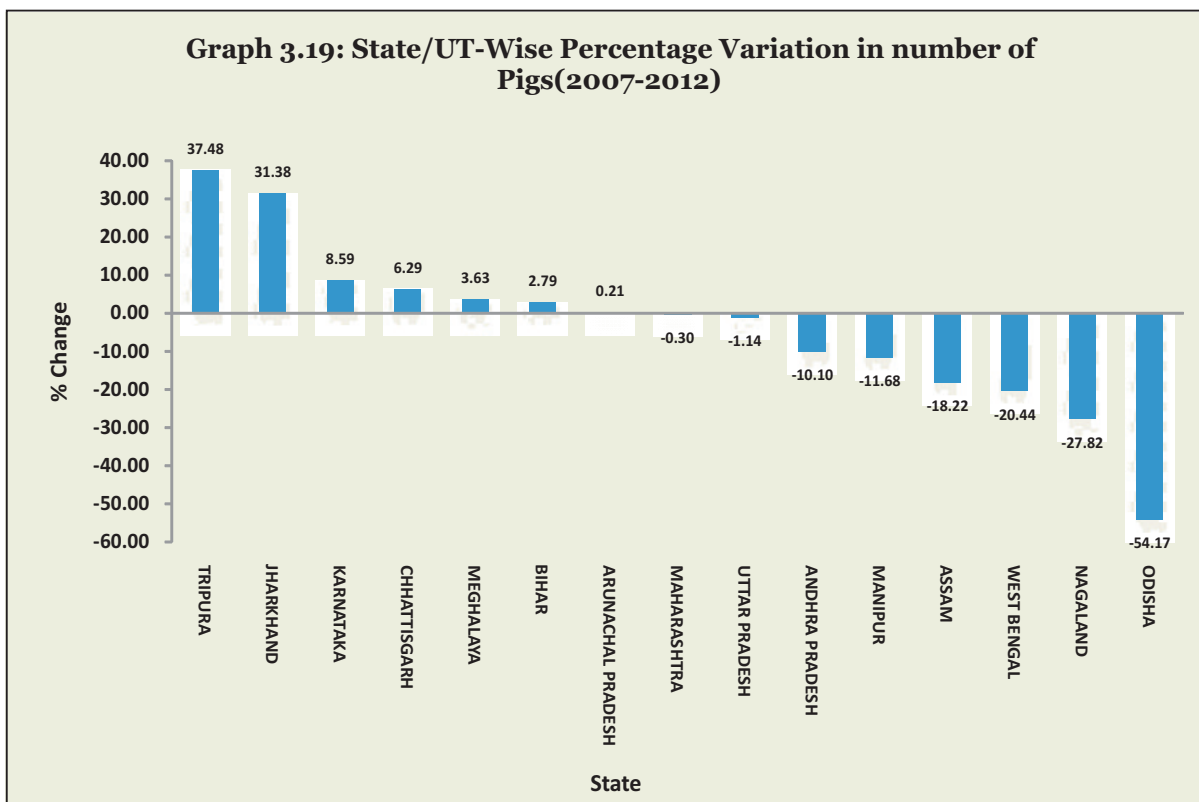

- ❖ The total Pigs contributes around 2.01% of the total livestock population.
- ❖ The total number of Pigs in the country as per 2012 Census is 10.29 million numbers.

### State-wise Pig Population

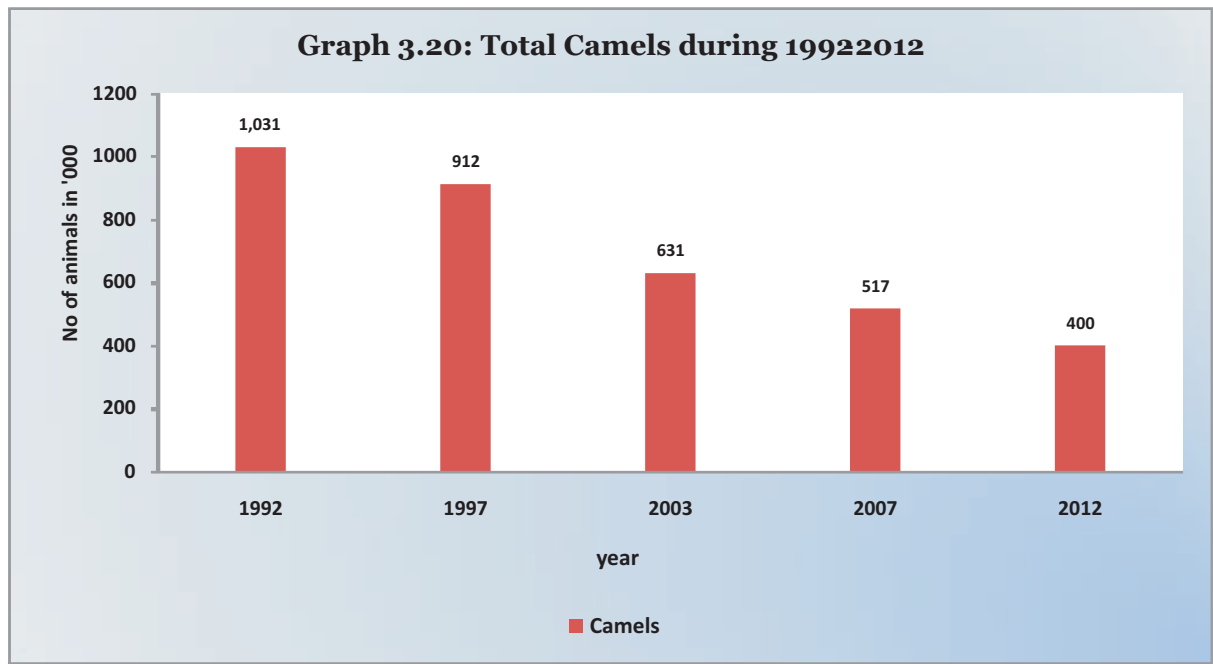

### State/UT-Wise Percentage Variation in number of Pigs

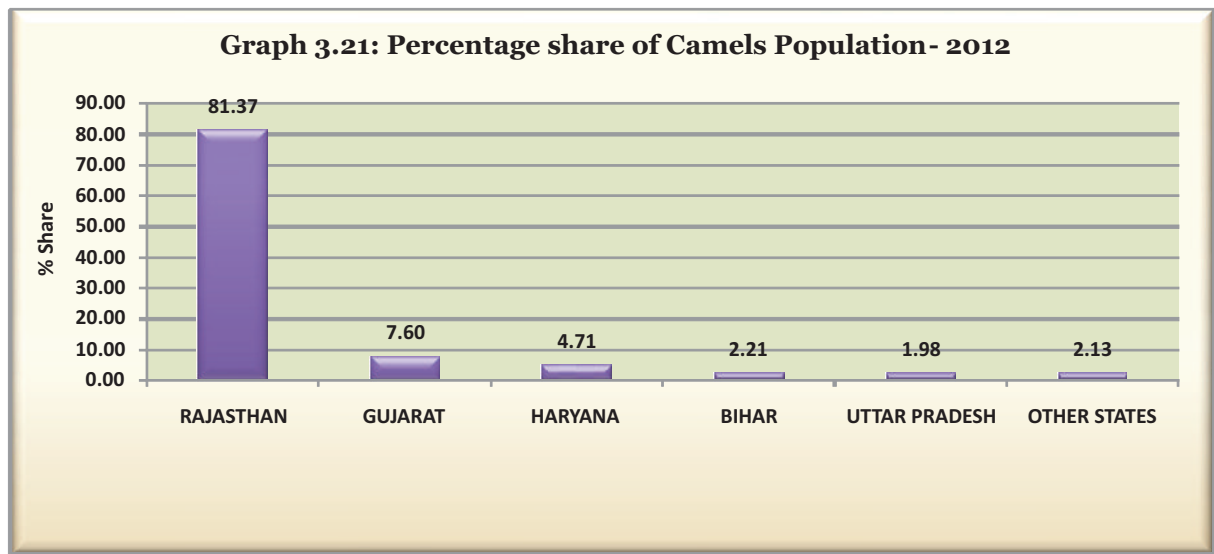

### Camels

- ❖ The total Camels contributes around 0.08% of the livestock population.
- ❖ The total number of Camels in the country as per 2012 Census is 0.4 million numbers.

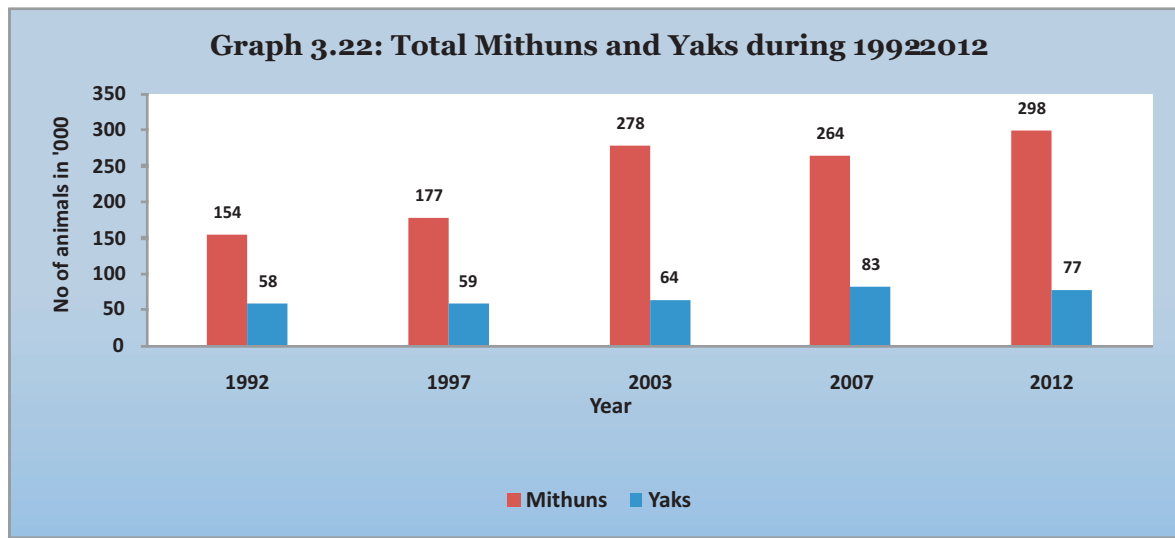

### State-wise Camel Population

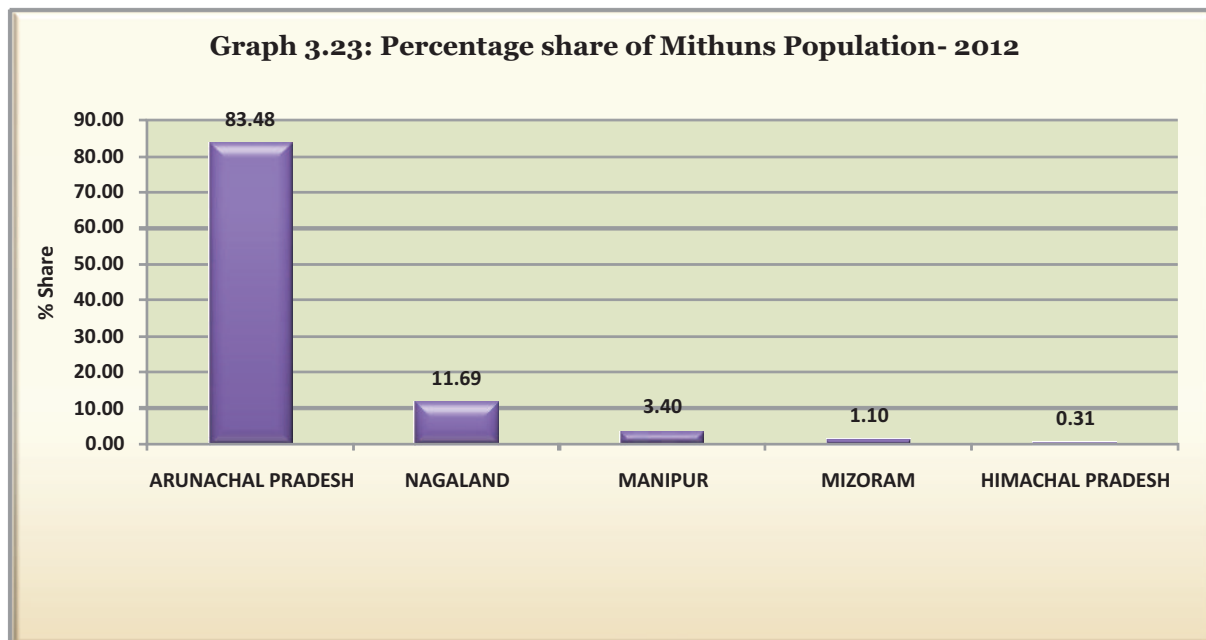

### Mithuns & Yaks

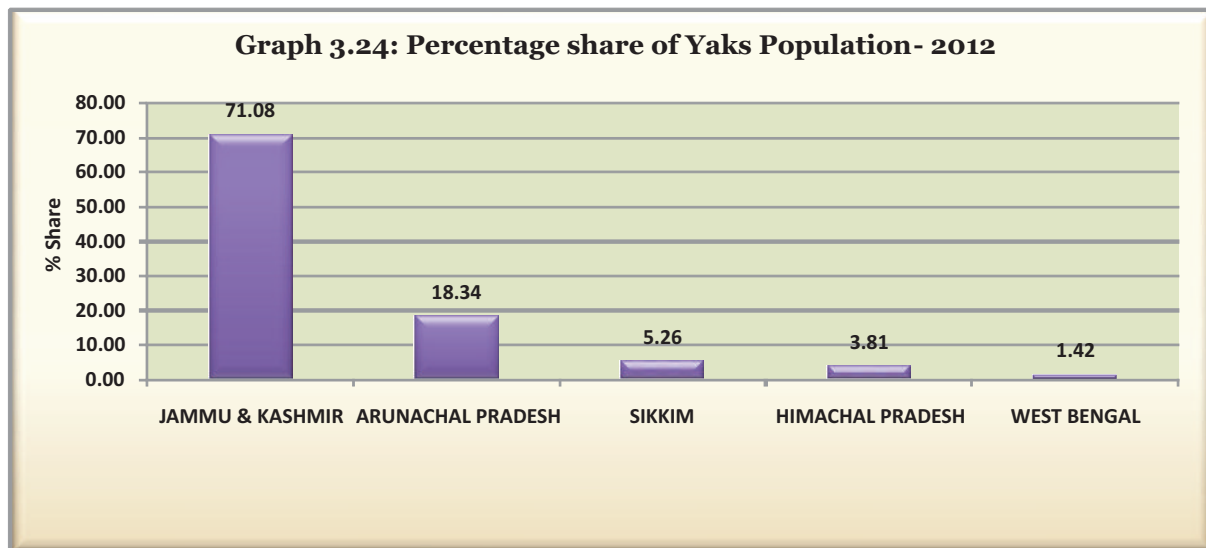

- ❖ The total Mithuns & Yaks contributes around 0.07% of the Livestock population.
- ❖ The total number of Mithuns & Yaks together in the country as per 2012 Census is 0.37 million number.

### State-wise Mithun Population

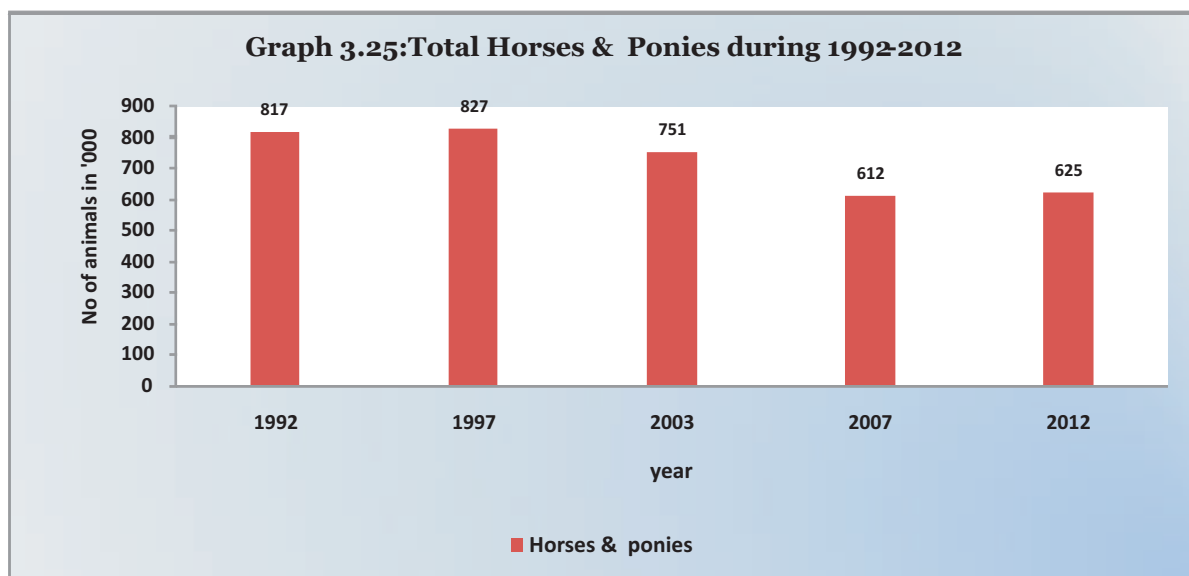

### State-wise Yaks Population

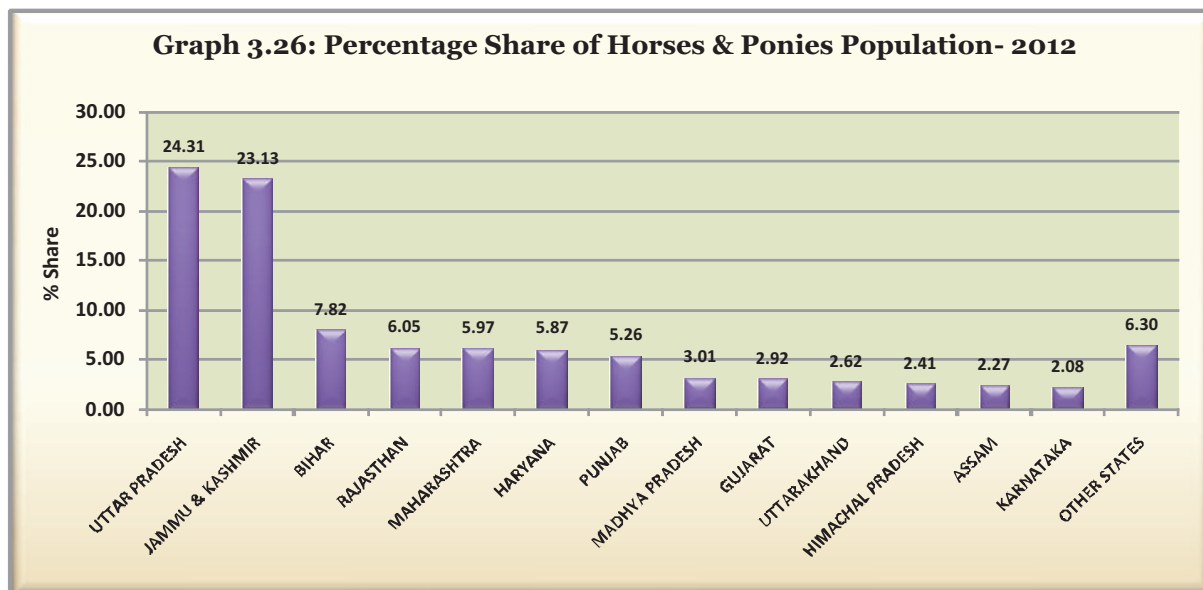

### Horses & Ponies

- ❖ The total Horses & Ponies contributes around 0.12% of the total livestock population.
- ❖ The total number of Horses & Ponies in the country as per 2012 Census is 0.62 million numbers.

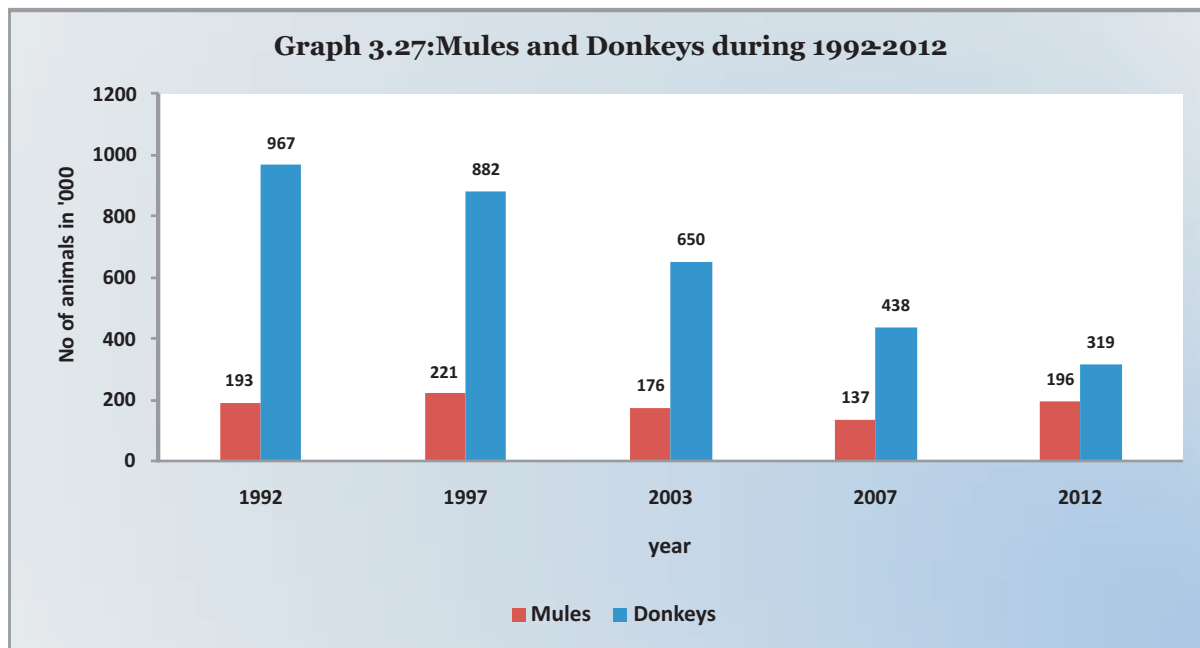

### State-wise Horses & Ponies Population

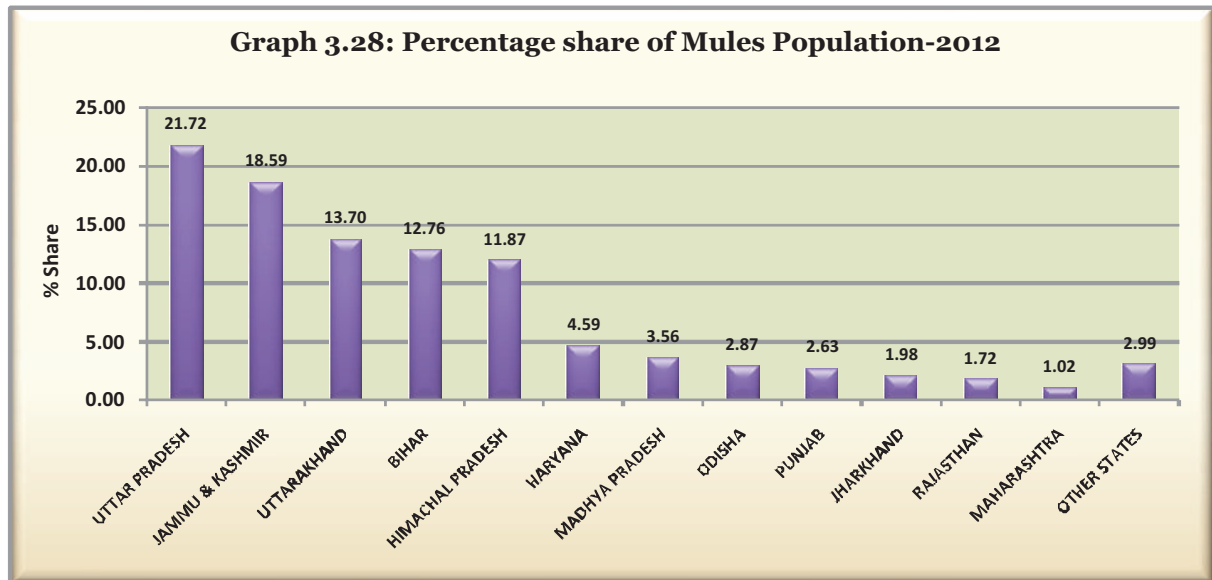

### Mules, Donkeys

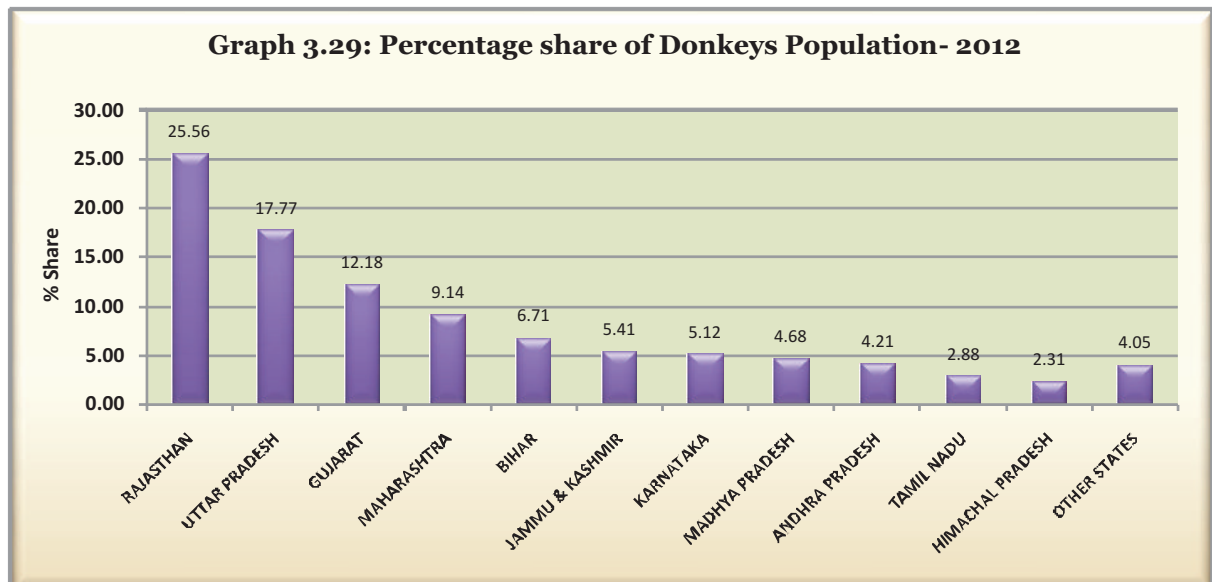

- ❖ The total Mules & Donkeys together contributes around 0.10% of the total livestock population.
- ❖ The total number of Mules & Donkeys in the country as per 2012 Census is 0.5 million numbers.

### State-wise Mules Population

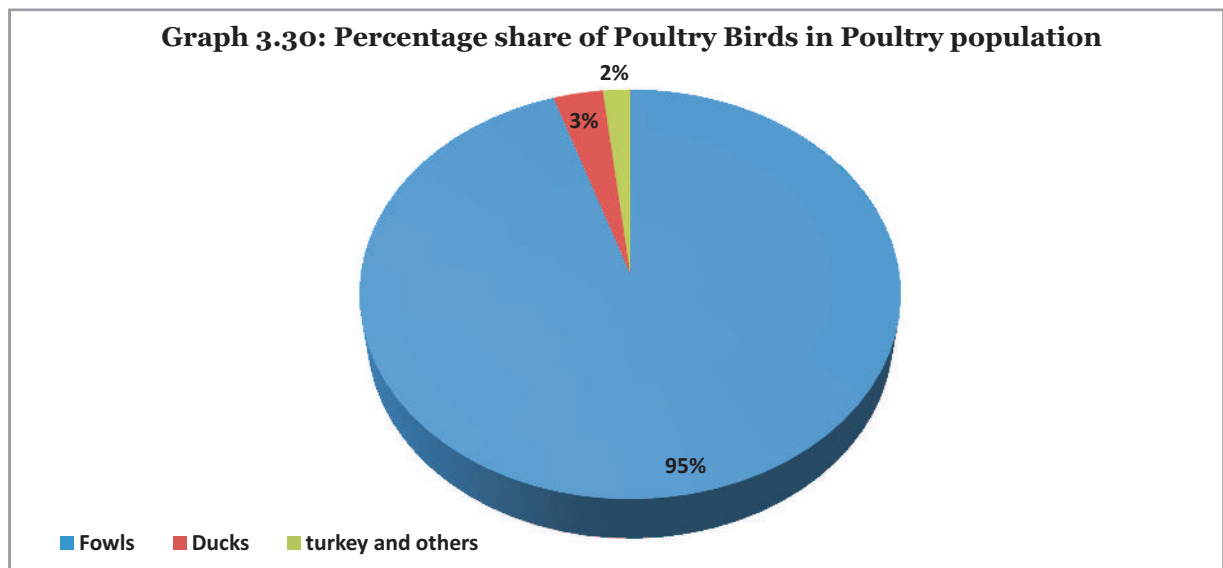

### State-wise Donkeys Population

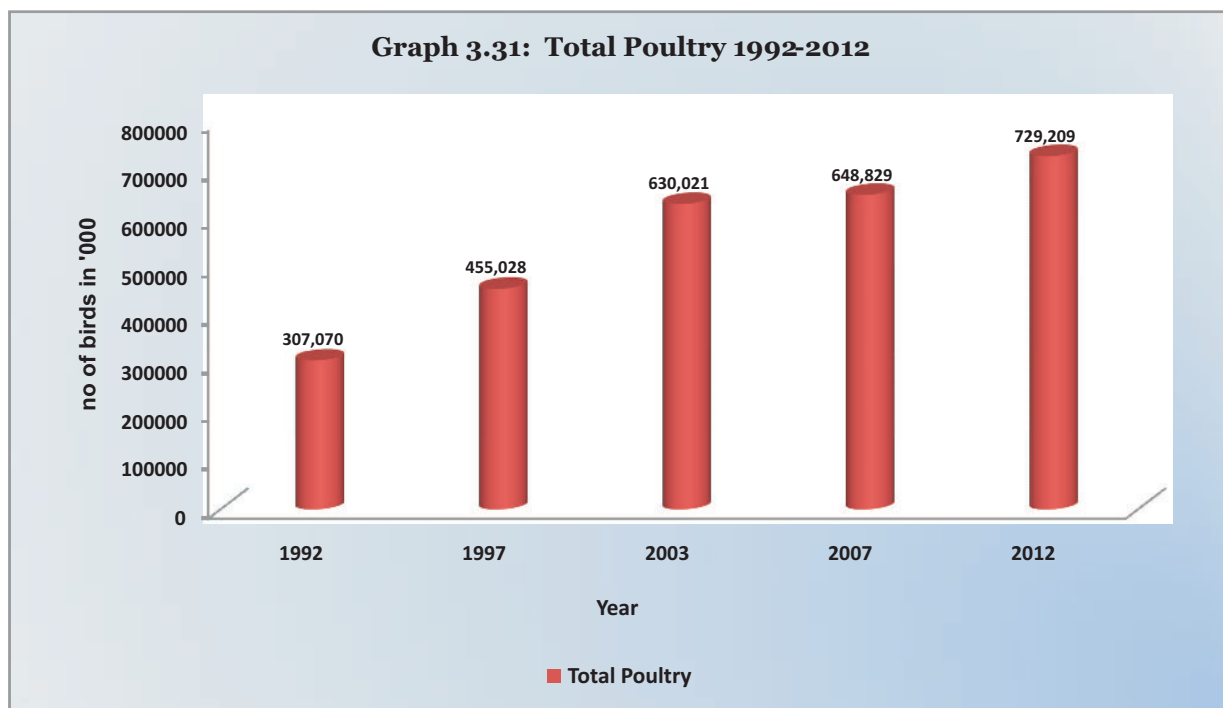

## Poultry

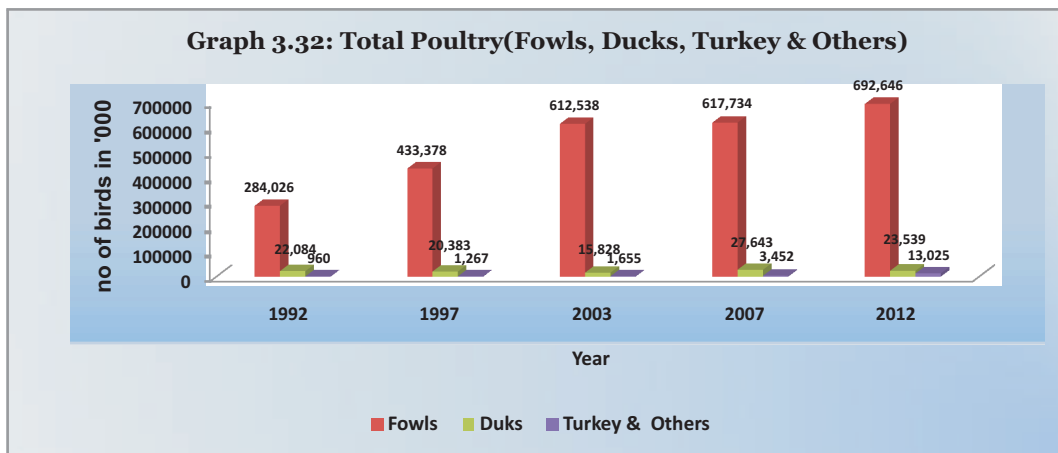

- ❖ Poultry consists of generally three categories namely Fowls, Ducks and Turkey & others. The Total poultry population in the country is 729.2 million numbers.

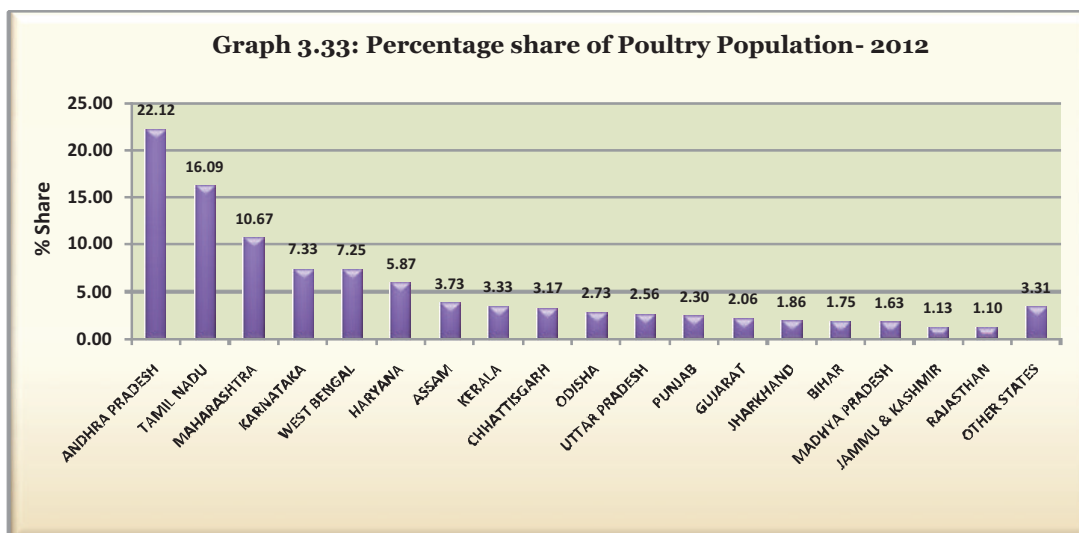

## Poultry Population during 1992-2012

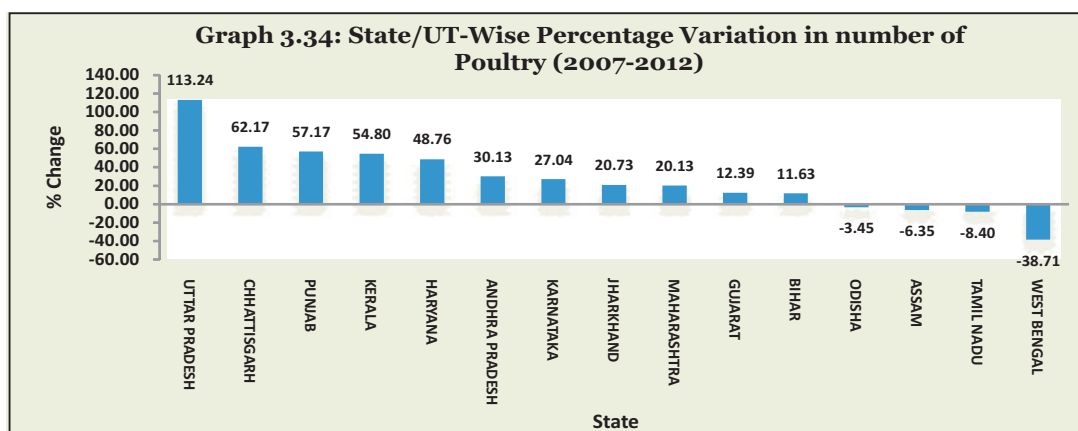

### Fowl, Duck and Turkey and others

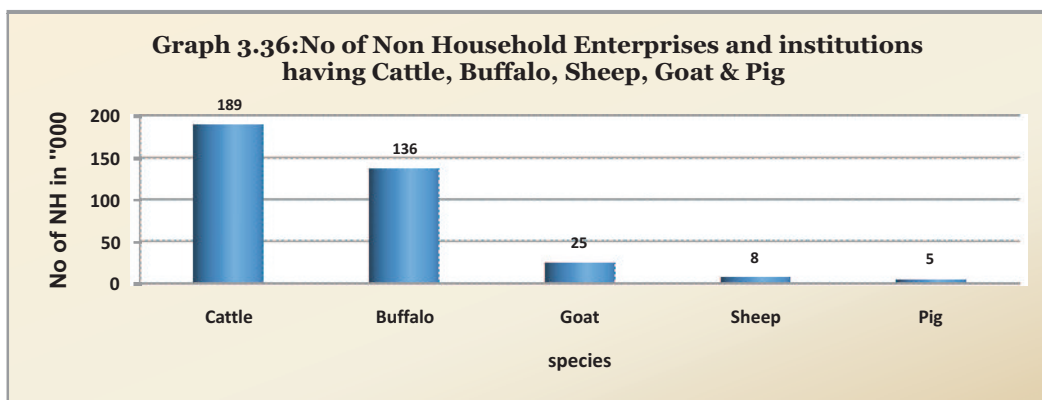

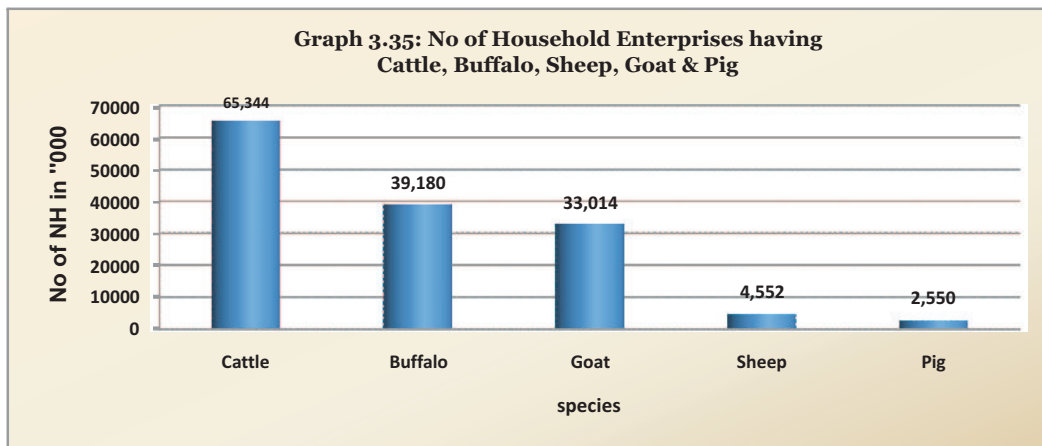

### State-wise poultry Population

### State/UT-Wise Percentage Variation in number of Poultry

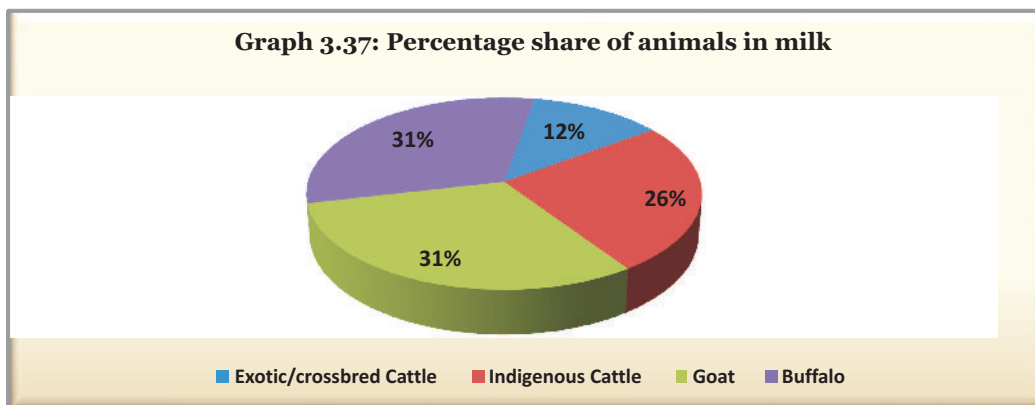

## Households /Non-Households Enterprises and Institutions having Livestock

### Uses- Cattle, Buffalo and Goat Animals in milk

- ❖ Animals in milk mean the animal’s who contribute towards production of milk. The total number of animals in milk in the country is 116.77 Million numbers.
